### Why Shop ADAC?

ADAC has everything a designer needs in one place! Erika’s favorite thing about ADAC is the programming that helps designers with their businesses, noting that ADAC is “the best design center in the Southeast.”

### 2020 Trends

Erika says design will be “going back to simplicity and minimalism with more emphasis on texture.” For this reason, she selected the Diamond Lamps from the Belle Figura Collection at Donghia. They are hand-blown and finished, adding unique beauty and texture to her Product Launch Showcase design concept.

### Coastal Calm

By featuring a chaise with wicker-effect cords, from the Outdoor Tape Collection by Nendo at Minotti, Erika brings coastal elements into a peaceful indoor space made for resting.
