

ADAC BUILDING UPDATE

Dear Valued ADAC Customer,

I hope this finds you healthy, both personally and professionally, in these uncertain times.

As of today, the State of Georgia is allowing certain business categories to reopen provided they comply with minimum basic operations guidelines as outlined by executive order of the Governor. Please be advised, that after several weeks of careful consideration and with an abundance of caution, we have determined that we will not open ADAC or AmericasMart this week. We know that you, and everyone in our design community, are eager to begin working towards economic recovery. And so are we! That said, the process of reopening our buildings is complex and must be undertaken responsibly to ensure the health and safety of our showroom partners and our customers.

In addition to basic guidelines offered by the Governor, we must comply with more extensive and formal requirements for safe hygiene and social distancing to ensure the health and safety of our Atlanta community. We will plan to open our buildings for business once we have implemented all necessary and required protective measures which we anticipate will include: posting requirements throughout our buildings, preparing for distribution of personal protective equipment (PPE) such as masks and gloves, installing social distancing barriers and temperature check equipment, developing crowd management strategies, and implementing industrial and approved cleaning protocols.

Our operations team, in consultation with other facilities of our scale, legal counsel and licensed epidemiologists, has begun developing standard operating protocols for IMC and for our showroom partners. We are also procuring the essential PPE for staff use and for customer distribution. During the next few weeks, we will review our plans to ensure that we are in full compliance and positioned to open the buildings safely and responsibly. Under no circumstances will we reopen unless we have all the preparations and protocols in place for the full protection of our tenants, our staff and our customers. We will spare no expense to ensure the safety and security of anyone utilizing our facilities. We will also communicate these protocols to you so that you know what to expect upon arrival at our buildings.

Thank you for your patience and support as we work through the critical process of safeguarding our team, our customers, and our communities for a productive and responsible return to business. In the meantime, please contact either of our buildings directly with any immediate questions or concerns.

We are looking forward to welcoming you back soon!
